HARD SKILLS

Critical Decision-Making:"I'm good at making choices that feel right, especially when it comes to figuring out how to handle school tasks. It's like having a helpful guide inside my head for making good decisions."

Effective Problem Resolution:When things get tricky, I can break big problems into smaller parts. It's like having a toolkit in my brain to solve puzzles step by step."

Innovation and Creativity:"I'm naturally creative in how I approach learning. I look at school stuff from different angles, making studying more like a fun adventure."

Optimized Resource Utilization:"I'm smart about using what I have, whether it's time, books, or tools. It's like being a good manager, making sure I get the most out of my study time."

Strategic Planning:"I naturally plan things out for school. It's not just about setting goals; it's also about thinking ahead, making a plan that helps me succeed in each school term."

PARTICIPATION

- WAZUMBUZI competition
- climate science olympiad competition
- MKU math competition
